

XIII INTERNATIONAL COAL PREPARATION CONGRESS

BRISBANE, 1998

VOLUME I

CONTENTS

Foreword

David Horsfall Memorial Lecture

A J Lynch, J Davis

Session A—The International Scene

A1 Best practices in international coal preparation: a benchmarking study

M J Laurila

A2 The development of rational coal preparation flowsheets for power coals to increase utilization efficiency

A Y Molchanov, I H Deberdeev, B I Linev, J B Rubinstein

A3 An innovative approach to a 'boutique' mine and coal preparation plant at Stratford Coal

P Newling, W Weale, P Crisafulli, A Swanson

Session B—The International Scene 2

B1 Performance evaluation: short- and long-term role in optimization of Canadian coal preparation plants

M W Mikhail, A I A Salama

B2 Coal preparation in China

Z Shan, M Lu, W Li, J Guo

B3 Quality management and beneficiation at Ruhrkohle Bergbau AG

R Reineking

B4 Beneficiation of thermal coal in India—issues and options

R K Sachdev

Session C—Dense Medium Separation

C1 Comparison and efficiency of 1,000 mm and twin 710 mm dense medium cyclones at Goonyella and Riverside

K R Leach, M Carretta, J Graham, A D Meyers

C2 Dense medium separation: does size really count?

J Bosman

C3 Development of large capacity dense medium cyclone circuits: an Australian designer's experience

M Goffinet, R Marshall, D Hiddlestone

C4 Dense medium baths: more flexible than you think

S van Barneveld, P Mills, P Crowley

C5 Developments in LARCODEMS medium processing technology

J McCulloch, D Baillie

Session D—Operations Management

D1 Preparation plant operators: the forgotten resource

P Barbaro

D2 The people in the process: safe production

A Brain, I Brake

D3 Effective maintenance management: an integrated approach

M du P Koen

D4 Noise reduction in coal handling and preparation plants

M Bridges, C Titter, D Hoffmann

Session E—Preparation Plant Development

E1 Assessing coal fines and their impact on plant performance

J S Esterle, G O'Brien, G Sexty, D Thornton, T Kojovic, N Djordjevic, Y Kolataschek, B Firth, C J Clarkson

E2 Sample pretreatment for improved washability prediction

A Swanson, I Fletcher, W Membrey, R Davis

E3 Video auditing techniques for breaker reject

B M Jenkins, G O'Brien, P I Corke, J M Waugh

E4 Development of slim core correction factors for improved prediction of mine yield

A Swanson, W G Weale, W L A Mackinnon

Session F—Small/Fine Coal Beneficiation 1

F1 Optimization studies on a 75t/h Teetered Bed Separator at Stratford Coal
R B Drummond, A Swanson, S K Nicol, P G Newling

F2 Dynamics of a teetered bed separator
K P Galvin, S Pratten, S K Nicol

F3 Some aspects of hydraulic size classification
B Firth, S Hu, M O'Brien, C J Clarkson, D Edward

F4 Multiple stage fine coal spiral concentrator
T R Prinsloo, R L Abela

Session G—Gravity Concentration 1

G1 Improvement of Baum jig into a Vari-wave type in Ikeshima Colliery
Y Iijima, Y Shimoda, Y Kubo, Y Jinnouchi, S Sakata, M Konishi

G2 Advances in modelling of stratification in jigs
A Jonkers, G J Lyman, G K Loveday

G3 Efficient beneficiation of coking and steaming coal
D Ziaja, B Bruce, A North

G4 Dynamic optimization of jig control
S Yang, D Fu, G An, M Qi

Session H—Gravity Concentration 2

H1 Larcodems: more than a proven de-stoning vessel on South African coals?
S T Harrison, J R Woodman, D M Peatfield

H2 Dense medium cyclone performance analysis and trials at Peak Downs mine
D Mathewson, C Dark, A Vince

H3 Development of fly ash derived magnetite for coal cleaning
G A Baird, D T Hornsby, H Lief

H4 Russian coal preparation plant of the year 2000
G Sazykin, B Sineoky, D Lybansky, N Bakanova

H5 A modern coal preparation plant in China: Fushun Laohutai washery
Z Shan, Z Wang, Z Zhang, Yu E

Session I—Small/Fine Coal Beneficiation 2

I1 Use of spiral separators in coal preparation
V V Kochetov, A P Levandovich, Z Berchberg, P L Pilov, A S Kirmansky

I2 Enhanced gravity concentration: an effective tool for fine coal cleaning
R Q Honaker, M K Mohanty, B Govindarajan

I3 Flotation of coal fines using high-shear water jets
M Agus, R Carbini, R Ciccu, M Ghiani, F Sana, C Tilocca

I4 Determination and evaluation of the results of fine slimes flotation under modern pulp flowsheet conditions
L Antipenko, L Kravchenko, L Oparin, A Syvorotkin

I5 Preparation technologies for small coal for solving ecological and resource conservation problems of Russia
V N Shokin, A Sherbatov, G I Popov

Session J—Flotation 1

J1 Coal flotation and drying in the Witbank coalfield
P E Hand

J2 A new method to characterize flotation performance of fine coal
M Tsunekawa, Y Kon, T Hirajima, M Ito, N Hiroyoshi

J3 Industrial applications of advanced fine coal cleaning and dewatering technologies
R-H Yoon, D I Phillips, G H Luttrell

J4 Installation of an Eimco pyramid column system at RJB Mining, Gascoigne Wood mine, UK
S Pringle, G Budge, D B Woodruff, S A Heley

J5 Pneumatic flotation: an alternative to conventional mechanical flotation machines?
B Bogenschneider, R Janitschek, R G Jung, J Schwerdtteger, R Lotzien, H C Haarmann
