ACPS AUSTRALIAN COAL
PREPARATION SOCIETY

2018

17th Conference / Brisbane Queensland

SCHEDULE

Tuesday 11th

10am Golf & Technical Tour (CSIRO/QCAT)
3pm Registration & Exhibition Open
5pm Arrival Function

Wednesday 12th

Opening Ceremony
Technical Sessions
- New Plants and Upgrades
- Dense Medium Separation
- Improved Fine Coal Processing
Evening Welcome Function

Thursday 13th

Technical Sessions
- Dewatering
- A Le Page Lecture: Column
Flotation by Prof J Rubinstein
- Poster Session
- Fine Coal Treatment
Evening Conference Dinner

Friday 14th

Technical Sessions
- Efficiency and Optimisation
- General Mine Site Papers
Conference Concludes 2pm

The ACPS biennial conference and exhibition is considered to be the premier technical and professional development opportunity in coal preparation.

A key focus is optimising the utilisation of our coal resource and operations. We continue to develop a deeper understanding of the coal resource and quantitative methods for defining its potential value. Within our plant operations, we are striving to improve availability, reliability and metallurgical performance of our assets, in order to reduce operating costs and maximise value.

The conference is open to mining, geology, engineering and processing

professionals, graduates and students, consultants and technology company representatives and presents a great personal and professional development and networking opportunities for all. Some 40 plus exhibitors will showcase current equipment and services as well as new and emerging technology developments.

On behalf of the Organising Committee, I look forward to warmly welcoming you to the Royal International Convention Centre in Brisbane in September 2018 to

participate in the 17th ACPS Conference and Exhibition.

- Draft technical program will be published in March 2018 and it is anticipated that there will be more than 30 papers and poster papers from mine sites, engineering companies, consultants and researchers.

- Registration available from March 2018
